April 2018

MEMORANDUM

TO: Deans, Chairpersons, and Directors

FROM: Hiram E. Fitzgerald, Ph.D.
Associate Provost, University Outreach and Engagement
University Distinguished Professor, Psychology

SUBJECT: Community Engagement Scholarship Award 2018-2019

Nominations are solicited for the annual Community Engagement Scholarship Award. This award provides University-wide recognition of highly engaged community-based scholarship collaborations that positively impact both the community and scholarship. Each year, the Community Engagement Scholarship Award is conferred upon an MSU faculty or academic staff member and her/his designated community partner(s). The co-recipients each receive a stipend of $2,500 and are recognized at the University’s annual Awards Convocation, next held on Tuesday, February 5, 2019, 3:30-4:30 p.m., at the Pasant Theatre, Wharton Center.

Additionally, the four finalists for the Community Engagement Scholarship Award will be recognized with an MSU Distinguished Partnership Award for community-engaged research, community-engaged creative activity, community-engaged teaching, or community-engaged service, which will be presented at an event later in the year.

Faculty, administrators, colleagues, students, or community partners can initiate nominations; self-nominations are also welcome. It is expected that nominees will be aware of the nomination and will participate significantly in preparation of the application. Applications must be submitted to the dean or administrator of the nominee’s major administrative unit (MAU) to be forwarded for University-level consideration. The college/MAU must verify the nominee’s length of continuous MSU employment and completeness of the packet of support materials. Although not required, the college/MAU may further review the candidate’s materials.

Nomination instructions are attached, including guidelines and information about materials required to support nominations.
Colleges and other MAUs should forward nominations to: Community Engagement Scholarship Award, Office of the Associate Provost for University Outreach and Engagement, Kellogg Center, 219 S. Harrison Road, Room 93, no later than Thursday, October 4, 2018. Contact me at fitzger9@msu.edu, or Carla J. Hills at hillsc@msu.edu, or call 353-8977 with questions.

It is strongly recommended that colleges establish nomination and review procedures now and that an announcement calling for nominations be issued immediately. This memorandum and the materials attached will be available at: http://www.msu.edu/unit/provost/awards.html.

The partnership recognized with the Community Engagement Scholarship Award will also represent Michigan State University in the competition for the regional W. K. Kellogg Foundation Community Engagement Scholarship Awards and national C. Peter Magrath Community Engagement Scholarship Award sponsored by the Association of Public and Land-Grant Universities and the Engagement Scholarship Consortium. These are among the most prestigious recognitions of exemplary engaged scholarship in higher education, and also provide recipients with cash prizes (learn more at: http://www.aplu.org/projects-and-initiatives/economic-development-and-community-engagement/community-university-engagement-awards/index.html). Upon selection, the Office of University Outreach and Engagement will provide the faculty co-recipient of the Community Engagement Scholarship Award with additional information about the competition and support his/her efforts to prepare the appropriate application materials.

Lastly, please be advised that unsuccessful nominations for the Community Engagement Scholarship Award may be resubmitted in subsequent award cycles. Those who have submitted unsuccessful nominations may also contact me for feedback after the Awards Convocation. I can be reached by email at fitzger9@msu.edu or by telephone at 353-8977. Recipients of MSU Distinguished Partnership Awards who are not selected for the Community Engagement Scholarship Award must wait at least two years before resubmitting nominations of the same collaborations, and are strongly encouraged to contact me for advice aimed at strengthening their nominations.

MICHIGAN STATE UNIVERSITY
COMMUNITY ENGAGEMENT SCHOLARSHIP AWARD 2018-2019

Nomination Guidelines

The Community Engagement Scholarship Award provides University-wide recognition of exemplary community-engaged research, creative activity, teaching, and service collaborations that positively impact both the community and scholarship. Each year, one Community Engagement Scholarship Award is conferred upon an MSU faculty or academic staff member and her/his designated community partner. Each receives a stipend1. The award co-recipients (scholar and community partner) are recognized at the University’s annual Awards Convocation.

As a land-grant institution, Michigan State University has a mandate to develop, apply, and share knowledge to serve the public good. MSU defines outreach and engagement as a form of scholarship that cuts across teaching, research, and service. It involves generating, transmitting, applying, and preserving knowledge for the direct benefit of external audiences in ways that are consistent with university and unit missions. Outreach and engagement occur when scholarship is applied directly for the public good and when the relationship between partners is reciprocal and mutually beneficial. The MSU model involves the co-creation and application of knowledge, a relationship that increases both partners’ capacity to address issues. Outreach and engagement also provide University scholars with new information that reflects realities outside the laboratory and the academy. Such new knowledge can sometimes be incorporated into future research and teaching and applied in new settings.

Community-university engagement partnerships that are featured in the applications should exemplify the description of engaged institutions found in the Kellogg Commission on the Future of State and Land-Grant Universities’ report: Returning to Our Roots: The Engaged Institution.

To be successful, the nomination must include both partnership and engagement scholarship descriptions as described in the Carnegie Foundation’s Elective Community Engagement Classification. That is, community-university engagement partnerships must illustrate a “collaboration between institutions of higher education and their larger communities (local, regional/state, national, global) for the mutually beneficial exchange of knowledge and resources in a context of partnership and reciprocity.” The engagement includes “collaborative, reciprocal partnerships and public purposes” and may be a part of “teaching, research and creative activity, and/or service;” i.e., community engagement as part of faculty roles.

1 The jointly conferred faculty or academic staff member receives a stipend of $2,500 and the community partner organization receives a stipend of $2,500. In the event that there are multiple community partner organizations, the group of organizations named in the nomination will share the $2,500 stipend. The Tax Reform Act of 1986 eliminated the general exclusion relating to awards made in recognition of educational or scientific achievement. As a result, the stipend for the MSU employee is subject to income tax and FICA withholdings. It is anticipated that a representative of the community partner organization will be presented with a check in the organization’s name at the annual Michigan State University Awards Convocation.
A successful nomination explains how scholarship that addressed community needs was a part of the partnership through research, creative activity, teaching, and/or service. Scholarship could include, but is not limited to “documentation of community response to … programs, other evaluations or studies of impacts and outcomes of outreach or partnership, and how activities engage faculty, students, and community in mutually beneficial and respectful collaboration.” Further, “Characteristics of scholarship within research and creative activities include (but are not limited to) the following: applying the literature and theoretical frameworks in a discipline or disciplines; posing questions; and conducting systematic inquiry that is made public; providing data and results that can be reviewed by the appropriate knowledge community, and can be built upon by others to advance the field.” Further information on the Carnegie Community Classification on Engagement is available at: https://www.brown.edu/academics/college/swearer/carnegie-classification.

Eligibility

The eligibility of each nominee will be assessed according to the following general criteria:

- Academic appointment as a: professor, associate professor, assistant professor, or instructor; senior academic specialist or academic specialist; senior research associate or research associate; MSU Extension senior program leader, associate program leader, senior extension educator, extension educator, senior extension specialist, extension specialist, senior conservation scientist, conservation scientist, or conservation associate is required.

- It is expected that a major portion of the engaged scholarship will have been accomplished while the nominee served as a faculty or academic staff member at Michigan State University with a minimum three-year appointment.

- Impact is an important criteria in determining the recipients of this award. For this reason, nominations reflecting collaborations with longer track records are preferred over those of shorter duration. Except in cases of extraordinary demonstrable impact over a shorter period, nominees are expected to have collaborated with their partners for a minimum of three years.

- Individuals with the academic appointment designations of emeritus, visiting, clinical, or adjunct are not eligible.

- Recipients of MSU Distinguished Partnership Awards who are not selected for the Community Engagement Scholarship Award must wait at least two years before resubmitting nominations of the same collaborations.

Process

Nominations may be initiated by faculty, administrators, colleagues, students, or community partners; self-nominations are also welcome. Applications are to be submitted to the dean of the college or administrator of the major administrative unit (MAU) in which the nominee is
appointed. To be forwarded for University-level consideration, each application must be
accompanied by a letter of endorsement from the nominee’s dean or administrator. Deans and
administrators may endorse as many applications as desired. The college or MAU is responsible
for verifying each nominee’s length of continuous MSU employment and the completeness of
the packet of support materials. Additional review of nominations by the college or MAU is not
required; however, this is an option.

In light of MSU’s commitment to inclusion, units should include the representation of women
and minorities, and should encourage and support efforts to submit a diverse and inclusive set of
nominees.

Each college and MAU forwards the nominations of eligible nominees to the Office of the
Associate Provost for University Outreach and Engagement. Nominations will be sorted
according to the categories in which they are submitted: community-engaged research,
community-engaged creative activity, community-engaged teaching, and community-engaged
service. The highest quality nomination in each category, as determined by a selection
committee organized by University Outreach and Engagement, will be declared recipients of the
MSU Distinguished Partnership Award for that category\(^2\) and finalists for the Community
Engagement Scholarship Award.

Finalists’ nominations will be forwarded to the Community Engagement Scholarship Award
Selection Committee to consider. The Committee is comprised of up to nine faculty members
and two community representatives. Faculty members of the Selection Committee will be
chosen by University Outreach and Engagement from names submitted by college deans and
MAU administrators, and from the names of past recipients of the award (formerly known as
the Outreach Scholarship Community Partnership Award). Committee membership reflects the
diverse composition of the faculty to ensure that the committee will be sensitive to the
University’s inclusion and multicultural commitments.

The faculty co-recipient of the Community Engagement Scholarship Award is expected to
submit her/his award-winning university-community partnership project as the Michigan State
University nomination for the W.K. Kellogg Foundation Community Engagement Scholarship
Awards and the C. Peter Magrath Community Engagement Scholarship Award sponsored by
the Association of Public and Land-grant Universities and the Engagement Scholarship
Consortium. Upon selection, additional information and application support will be available
from the Office of the Associate Provost for University Outreach and Engagement.

Submiting Nominations

Complete nominations and supporting materials should be forwarded to the applicable
college/MAU screening committee by its stipulated deadline. Nominations should be initiated
well in advance to allow for the collection of letters of support (including the

\(^2\) The MSU Distinguished Partnership Awards are also jointly conferred. For each award, the faculty or academic staff member
receives a stipend of $750, the community partner organization (or group of organizations) receives a stipend of $750, and the co-
recipients are recognized at an annual University Outreach and Engagement awards ceremony. The stipends for MSU employees
are subject to income tax and FICA withholdings.
dean’s/administrator’s letter and external letters of support). Colleges and MAUs must forward nomination packages to:

Community Engagement Scholarship Award
University Outreach and Engagement
Kellogg Center, Room 93
219 S. Harrison Road
East Lansing, MI 48824

Contact Hiram E. Fitzgerald at fitzger9@msu.edu, or Carla J. Hills at hillsc@msu.edu, or call (517) 353-8977 with questions.
MICHIGAN STATE UNIVERSITY
COMMUNITY ENGAGEMENT SCHOLARSHIP AWARD 2018-2019

Nomination Format and Instructions

All documentation must be double-spaced, in 12-point font. Exceptions include: letters of support, charts, and graphs that are supporting materials as they appear in Section 6, and the citation as suggested from the sample citation in Section 7.

The nomination packet must follow this outline:

- Cover Page (all elements required)
  - Project Title
  - Nomination Category – print the name of the type(s) of community-engaged scholarship that most reflect(s) this project and for which the nomination is being made (select as many as apply):
    - Community-Engaged Research
    - Community-Engaged Creative Activity
    - Community-Engaged Teaching
    - Community-Engaged Service
  - Nominee/Scholar – print:
    - Name as it should appear on the Award Certificate
    - Academic rank/position
    - Department(s)
    - College(s)/MAU(s) – please list joint appointments, listing primary appointment first
    - Office postal address
    - Office telephone number
    - Cell telephone number
    - E-mail address
  - Community Partner(s) – print name(s) of organization(s) as it(they) should appear on the Award Certificate
  - Designated Community Partner(s) Representative(s) – print name(s) of person(s) who will represent the community partner(s) at the Michigan State University Awards Convocation
- Section 1: Abstract Page (300 words)
- Sections 2-5: Narrative (2,200 words)
- Section 6: Appendix/Supporting Materials (maximum of 8 pages)
- Section 7: Citation (500 words, approximately) formatted per the sample citation

3 See the attached NOMINATION CATEGORIES page with descriptions and examples of the forms of community-engaged scholarship.
Section 1: Abstract Page (300 words)

Significance of the Engagement Partnership
In 300 words, summarize the community-university partnership and the scholarship embedded in the partnership. Describe how the partnership intentionally studies and/or addresses community issues and concerns, jointly derives solutions, and then “publicizes” and disseminates what was discovered and/or accomplished.

Sections 2-5: Narrative (2,200 words)

Section 2: Relationship and Reciprocity between the Community and the University
Describe the issue, its significance, the relationship between MSU and community, and how reciprocity is a part of the relationship. Who are the key university and community partners? How does an engaged partnership fit into the mission, values, and organizational structure of the university? How did university and community partners work together? What was the role of each partner and what was accomplished? Provide evidence of shared decision-making and partnership empowerment.

Section 3: Impacts

3.1 On Community Partners: What were the anticipated benefits for community partners? What has been the impact in the community? Impacts should include, but are not be limited to: knowledge generation and sharing, economic, social, and educational impact within the community, as well as additional dollars generated through grants, contributions, fees, etc. Identify initial funding that supported the development of this engagement initiative, and describe how sustainability has been addressed.

3.2 On University Partners: What were the anticipated benefits for the University? What has been the impact in the University? How has the university-community partnership impacted the missions of the university and what has changed?

Impacts must include scholarship and may also include, but are not limited to, student success and the development of human capital.

Section 4: Lessons Learned and Best Practices

What were the challenges for the community and university partners and how were those challenges met? What conclusions and best practices can be drawn from the partnership? These could include but are not limited to: the processes of being partners and sustaining a partnership, innovative solutions to community issues, and changes in the partnership or changes within one of the partners.

Nominations must include information about how have these conclusions and best practices been documented and shared publicly.
Section 5: Future

What are the future plans for this partnership? How will the partners continue to work together or how will they determine when the partnership is concluded?

Section 6: Appendix and Supporting Materials (Maximum of 8 pages)

Note: this section does not require materials to be double-spaced and in 12-point font. Applications must include two letters as part of the appendix. One letter must be an endorsement from the dean or administrator of the college or major administrative unit of the nominee’s primary appointment. The letter should provide evidence of the institutional commitment to engagement, such as citing mission, engagement plan, or organizational structure. The second letter must be from a community partner or consortium of partners. This letter must provide evidence of collaboration, reciprocity, mutual benefit, and the roles of community partners.

Section 7: Citation (500 words, approximately)

Please enclose a citation of approximately 500 words to appear in the Awards Convocation program booklet, if the application is selected. The Community Engagement Scholarship Award is jointly conferred. Recognition goes to the MSU faculty or academic staff member and the partner organization(s). Please designate a representative to accept the award on behalf of the partner(s). A sample citation is included in the application format and instructions.
**NOMINATION CATEGORIES**

Important: On the cover page, please identify the form of community-engaged scholarship from the categories below that most reflects this project and for which the nomination is being made.

<table>
<thead>
<tr>
<th>Community-Engaged Research</th>
<th>Community-Engaged Creative Activity</th>
<th>Community-Engaged Teaching</th>
<th>Community-Engaged Service</th>
</tr>
</thead>
<tbody>
<tr>
<td>Associated with the discovery of new knowledge and the development of new insights in collaboration with community partners</td>
<td>Associated with the creation of new artistic or literary performances and expressions in collaboration with community partners</td>
<td>Organized around sharing knowledge with various audiences through formal, non-formal, or informal arrangements; conducted for credit or not for credit, and guided by teachers or self-directed</td>
<td>Associated with the use of University expertise to address specific issues identified by individuals, organizations, or communities; not driven by research questions, though research questions may be of secondary interest</td>
</tr>
</tbody>
</table>

- Community-based, participatory research
- Participatory Action Research
- Use-inspired basic research
- Applied research
- Contractual research (funded by government, non-governmental organizations, or businesses)
- Demonstration projects
- Needs and assets assessments
- Program evaluations

**Collaboratively created, produced, and/or performed:**
- Film
- Theater
- Music
- Performance
- Sculpture
- Novels, plays, poetry
- Spoken words
- Multi-media
- Exhibitions

**Formal (for credit):**
- Service-learning
- Community-engaged research as part of university classes
- Study abroad programs with community engagement components
- Online and off-campus education

**Non-formal (not for credit):**
- Pre-college programs
- Occupational short course, certificate, and licensure programs
- Conferences, seminars, not-for-credit classes and workshops
- Educational enrichment programs for the public and alumni

**Informal (not for credit):**
- Media interviews or “translational” writing for public audiences
- Materials produced to enhance public understanding
- Managed learning environments, such as museums, libraries, gardens

- Technical assistance
- Consulting
- Policy analysis
- Expert testimony
- Legal advice
- Diagnostic and clinical services
- Human and animal patient care
- Advisory boards and other disciplinary-related service to community organizations
EVALUATION CRITERIA

These criteria were adapted from the Overview and Application Guidelines for the W.K. Kellogg Foundation Community Engagement Scholarship Awards (2014) for use by the selection committee of the MSU Community Engagement Scholarship Award. Reviewers are asked to rate nominations both quantitatively and qualitatively according to the criteria below. Also included are questions to consider for each section.

1) Abstract (Section 1 of Guidelines document)
   a. How well does the abstract summarize the outreach scholarship and engagement partnership?
   b. How significant is the issue being addressed by this project?
   c. Does the abstract convey the impacts on the community and university resulting from the partnership?

2) Relationship and Reciprocity Between the University and Community (Section 2)
   a. Are the university and external partners adequately described?
   b. Is there a reciprocal (two-way) relationship between partners?
   c. Is there a high level of shared decision-making and empowerment between partners?
   d. Does the engagement fit the mission, values and organizational structure of the university?

3) Demonstrated Impacts on Community Partners and the University Partners (Section 3)
   a. Is there evidence of significant and appropriate impact on the community?
   b. Is there evidence of significant and appropriate impact on the university?
   c. Was there evidence of initial funding which supported the development of the partnership?

4) Lessons Learned and Best Practices (Section 4)
   a. Are challenges, benefits, conclusions and lessons learned noted?
   b. Is this project an excellent exemplar of best practice in engaged partnership and engagement scholarship?

5) Future and Sustainability (Section 5)
   a. Is there a significant opportunity for innovations to be translated and applied within the involved community?
   b. Does this effort have future sustainability, including external support?

6) Institutional and Community Commitment (Section 6: Appendix)
   a. How well does the letter from the community partner provide evidence of strong community involvement and support?
   b. To what degree do the program evaluations; additional letters of support, news releases, and other materials clearly indicate significant impact?
TIPS FOR WRITING DRAFT CITATIONS

Important: Please print names of both the faculty or academic staff member and community partner organization co-recipients as they should appear on the award certificates and in the awards program booklet.

The citation will be printed in the Awards Convocation program booklet. The citation should be an accurate statement of the person's achievements and it should also be:

- **Distinctive.** The citations should reflect an honoree’s distinction; a relevant tidbit about the person (as opposed to the person's achievements) is helpful, e.g., "A scientist who is also broadly versed in music, literature, and the fine arts."
- **Creative.** Convey the unique qualities of the partnership and its work. Search for unusual and descriptive adjectives, varying cadences and turns of phrase.
- **Easily understood by a lay audience.**

A student’s (or a colleague’s) quotation adds human interest to the citation. Such quotations should be specific rather than general. “One of the most important things Dr. X communicates is her conviction that public scholarship can be the heart of an honorable way of life.”

Keep in mind that each item can only be a few sentences long at most. Include such things as:

- Statements of the person's area of expertise and of the overall significance of his/her contributions/achievements to the world/the University, especially across disciplines. How far does that influence reach? State-wide? Nation-wide? International? Public/private sector? What impacts has the partnership had on the community? On constituent groups?
- Specific ways in which the excellence of the partnership and of the nominee has been evidenced. Community outcomes; impacts on scholarship, inquiry, and teaching; student learning and mentoring; support of funding for sustaining additional work; etc.
- Specific evidence of scholarship and contributions to other areas of the University’s mission (e.g., research and creative activities, teaching, service). Avoid citing numbers of things unless they are really phenomenal. Instead, cite capstone examples. Use layperson's terms where possible, and cite the usefulness or results of the person's work in their largest context. Grants, professional societies, and awards are appropriate here, but only the most significant.
- Other: Relevant, related volunteerism (e.g., community service not utilizing or grounded in scholarship), MSU committee service, professional affiliation, etc. Again, use only the most significant examples.

Conclude with a sentence summarizing the nominee's worthiness of the award.
The Community Engagement Scholarship Award honors Gail Richmond, associate professor of teacher education, and the Detroit Public Schools for their partnership in constructing and implementing a model program designed to prepare and to support individuals with a commitment to improving the lives and well-being of children from high-poverty communities through the teaching of science and mathematics.

Dr. Richmond's research has focused on providing access to high-quality STEM (Science, Technology, Engineering, Math) experiences for young learners—both in and out of school. Further, her research has contributed to how educators conceive of and engage in science teaching across multiple settings and with diverse audiences. Finally, her commitment to applying her research findings to helping students from all backgrounds embrace science learning and the STEM fields has ensured that hundreds and hundreds of students are equipped to fulfill their dreams through science-based college pursuits and STEM careers.

While the details of her research work in this area are too great to explain fully, her commitment is perhaps best reflected in her 26 years as the director of the national summer STEM research program for high school students at MSU. Not only does she provide these 650 students with research guidance and opportunities, she provides them with the scientific responsibilities and skills to master research proposals, report writing, and presentation skills. These accomplishments, along with her direct involvement, help prepare them to apply to college and then to succeed. These students come from multiple racial, ethnic, and socioeconomic backgrounds: the investment she makes in the program and in them has created opportunities for success that the students have not only met— but met with great success, so much so that their confidence and new knowledge has helped them become part of the STEM community in their studies and in their careers.

Dr. Richmond's work has been supported by multiple grants, primarily from the National Science Foundation, and has been disseminated in peer-reviewed publications and through various other venues. When not at work, Dr. Richmond can be found tutoring students or working on or around her farmhouse: she also is an active chamber and orchestral musician.

The MSU W. K. Kellogg Foundation Woodrow Wilson Teaching Fellows Program is a campus-community collaboration that provides integrated course- and field-based preparation: a year-long residency in a partner school; and ongoing professional support during the first three years of teaching. The goal of this collaboration is to prepare a new generation of STEM teachers who will actively engage individuals and organizations within their communities to help ensure the health and well-being of students, families, and communities; and to share research findings to enhance researchers', practitioners', and policy makers' understanding of factors critical for the development of effective and resilient educators. The Woodrow Wilson
Foundation National Fellowship Program has been a financial supporter and an active collaborator in the design, implementation, and refinement of this work.

The Detroit Public Schools has been a core district partner, working with Dr. Richmond to identify and partner fellows with mentor teachers, to provide ongoing professional support to fellows and mentors, and to offer a wealth of site-based experiences to fellows to enhance their development of the knowledge and skills critical for effective teaching in challenging contexts.

This university-community collaboration provides an excellent example of the scholarship-guided outreach that Michigan State University is committed to as a land-grant university. Such collaborations are systematic, have practical and theoretical significance, and include a mutually beneficial relationship between MSU and a community partner. This particular partnership merits recognition for making a difference in the lives of under-represented Michigan youth and Detroit Public Schools as well as encouraging the pursuit of STEM studies and careers.
